

Specialty Skills for maintenance and improving current facilities

The Cikananga Wildlife Rescue Center takes care of on average 300 wild animals that are confiscated, rescued or evacuated from the wildlife trade or conflict situations. The center was established in 2001 and at the moment we are looking for people with skills to perform maintenance on all facilities.

We are looking for engineers, mechanics, carpenters, electricians, welders and plumbers to help us make us an exceptional rescue center! We have so many jobs around the center and we do not currently have the skills to complete. So while you also volunteer with our animals and help provide them daily care, we are also looking for those extra special talents to assist our animals a bit more! Any volunteer that has a skill that we can use we will only charge you the intern rate. This covers your food and board while you're here, this price is 100 euros per week for all your food and accommodation!

All activities will all be done with supervision of Cikananga staff who are Bahasa Indonesia and / or English and / or Dutch speaking.

Visit for more information www.cikanangawildlifecenter.com or www.wanicare.com page. Are you interested and exited, apply by sending a motivation letter and CV to wanicare.volunteering@gmail.com Still got questions? Do not hesitate to contact us.
